

Better Access is Better Care

WAITS FOR NEUROLOGY APPOINTMENT

The average wait time nationwide for a neurology appointment has ballooned to 35 business days.¹

Compare to 9 days for Kane Hall Barry.

It's about more than convenience.

Neurology patients have urgent care needs. Changes in behavior or abilities. Severe pain. Scary symptoms.

Here is how we do it:

- We monitor access times and adjust provider availability daily.
- Our neurological nurse practitioners increase access to care.
- Same day as appointment patient testing (NCV, EMG, and EEG)
- *“The most efficient medical practice I have ever seen”* – KHB Supplier
