

## An Ambulatory Infusion Center Focused on Autoimmune Disorders

*Your patients will benefit from our experience infusing biologic drugs.*

Over half a million patients in the metroplex live with chronic autoimmune diseases, including:

- Crohn's Disease
- Psoriasis
- Lupus
- Myasthenia Gravis
- Asthma
- CIDP
- Multiple Sclerosis
- Rheumatoid Arthritis
- Inflammatory Bowel Disease
- Inflammatory Neuropathies

Many of the most effective medications for autoimmune diseases - large molecule biologic or intravenous immunoglobulin (IVIG) products - must be administered under physician supervision.

Non-specialist infusion centers may offer some of these drugs, but your autoimmune disease patients will benefit from the experience of our neurologists and infusion RNs, including a certified MS nurse.

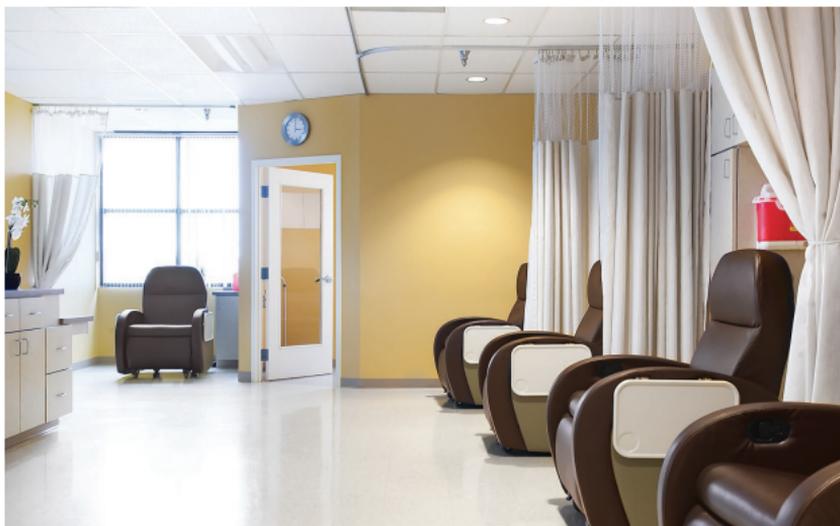

Our nine-chair infusion suite, combined with our infusion coordinators' experience with pre-authorization and financial assistance resources, allows us to get your patient in relatively quickly.

**Phone: 817-553-1325 Fax: 817-553-1393**

5807.0001@direct.khb.nextgenshare.com

1305 Airport Freeway, Suite 205, Bedford, Texas

*Infusion patients have access to DVD players and Wi-Fi to pass the time comfortably. Complimentary refreshments and lunches are served.*

### Patients Appreciate Kane Hall Barry Infusion

*"The experience was very positive. The RN was extremely professional and attentive. Very friendly." – Ann M*

*"I have been going to Kane Hall Barry Infusion Center for 14 years now, and it has always been a good experience. The staff are very nice and very efficient. The facility is very clean and orderly. Would never go to a different infusion center." – Linda*
